Summary

Frontend Engineer with over **6 years** of experience building scalable, user-focused web solutions. Skilled in **JavaScript**, **React**, **Redux**, and **Node.js**. Known for leading cross-functional teams, improving system performance, and delivering high-quality features.

Skills

Languages: JavaScript, TypeScript, HTML, CSS

Frontend: React, Next.js, Redux, Tailwind CSS, Material UI, Ant Design, Jest, React Testing Library

Backend: Node.js, NestJS, Express, MongoDB, PostgreSQL

DevOps: Azure, GCP, Git

Workflow & Leadership: Agile Development, Scrum, Team Lead

Experience

GS Lab | GAVS — *Senior Software Engineer*

December 2022 - July 2025

- Led migration from **React** to **Next.js** (MPI) and delivered reusable libraries and chart components.
- Built logistics platforms (A2O, Visual Factory) with React, improving usability and performance.

Globant — *Software Engineer*

April 2021 - December 2022

- Led a 5-member ASCEND agile team in integrating ALM, Teams, and JIRA tools utilizing **TypeScript**, **React**, **NestJS**, **Azure**, and **SQL**.
- Achieved a 75% increase in test coverage through implementation of the **React testing library**.
- Improved project management efficiency with git rebasing strategy implementation.

Sungard Availability Services — *Associate Web Developer*

February 2019 - April 2021

- Achieved significant improvements in Portal UI performance by reducing build size from 15.3 MB to 1.6 MB.
- Reduced onboarding time by 30% with a streamlined full-stack solution implementation.

Zensar Technologies — *Software Engineer*

March 2018 - July 2018

- Acquired foundational web development skills in HTML, CSS, Python, and JavaScript.

Awards

- **Above & Beyond:** Led Visual Factory & A2O to deliver outstanding results
- **Excellence in Work:** Boosted test coverage by 75%, enhancing product quality
- **Pat on the Back:** Led a 5-member team in Azure functions design, development, and integration
- **A-star:** Contributed to cost-saving and customer retention during bankruptcy

Education

B.E. in Computer Engineering — *PVG's COET, Pune (2013-2017)*
